

## **Microsoft Dynamics 365 CE Technical Architect**

### **WHO is HSO ProServ?**

HSO ProServ is the premier provider of Microsoft Dynamics 365 cloud solutions for professional services firms and other project-driven businesses for the past 20 years. We are an 11-time Microsoft Partner of the Year and a proud member of Microsoft's elite Inner Circle representing the top 1% of Microsoft Partners worldwide. Our family of vertical solutions extend the core functionality of Microsoft Dynamics 365 to provide an unparalleled offering in the marketplace for architecture, engineering, and construction firms, accounting firms, consulting firms, and law firms. Our industry solutions include: accounting360, legal360, aec360, and consulting360.

### **WHY should you join us?**

- We are offering a full-time position as a **D365 CE Technical Architect** with a competitive salary and benefit package.
- You will work for an Eleven-time Microsoft Partner of the Year award winner.
- We are on the forefront of new technologies and engage directly with the Microsoft engineering team.
- You will be working with a long tenured, highly experienced, collaborative, supportive, and a fun goal-oriented team.
- We are committed to our service industry vertical focus – you will not be in manufacturing one week, retail the next, then distribution. You can focus and grow your skills in a single industry.
- You will be part of one of the largest resource pools of any Microsoft D365 partner – bringing local expertise combined with global reach.
- We are 100% dedicated to Microsoft Dynamics 365 and the Power Platform; we have no other lines of business or competing priorities.
- You will be taking part in an exciting work environment with some of the best and most experienced Dynamics 365 Functional and Technical Consultants in the business.

### **WHAT do we need?**

We are looking for an experienced **D365 CE Technical Architect**. As a CE Technical Architect, you should have in depth knowledge of D365 CE and Power Platform. You are energetic and passionate about Dynamics 365 CE and the Power Platform and how it can be used to solve complex business problems. You lead presales engagements, providing expert services to solution large complex deals that span multiple technologies and offerings. You will lead the delivery team and provide Architecture guidance and direction leveraging your deep knowledge of Dynamics 365 CE and Power Platform.

### **Key Role Responsibilities:**

- Assist in presales estimation activities and planning as required
- Leverage technical expertise to Architect CRM solutions. You will also be required to be hands-on with Dynamics 365 CE and Power Platform
- Assess Client requirements and scope and recommend appropriate solutions

- Design Conceptual and Technical architecture
- Support the team in defining technical, operational and user requirements
- You are an excellent communicator, with strong client management skills, and a real passion for technology
- You enjoy partnering with your clients to develop and lead a technology plan supported by CRM, and you have experience as a consultant working with external clients
- 5+ years of experience in system design, application development, software engineering, or other related experience
- Bachelor's degree in Business Systems or a related field or equivalent experience
- Self-starter and creative thinker
- Understanding of common Industry standard business practices supported by Dynamics 365 CE
- Architecting large complex solutions using the Microsoft Stack
- Experience in Dynamics 365 CE, Power Platform (PowerApps Portal, Canvas and Model Driven Apps, Power Automate) and Common Data Service
- Experience in Configuration and Customization of Dynamics 365 CE (Plugins, JavaScript, Logic Apps, Azure Functions), Web API and SSIS
- DevOps with Dynamics 365 CE
- Experience in a Software as a Service (SaaS) environment, SQL Server, HTML, C#, .NET
- Experience working in both Agile and Waterfall delivery models
- Working with global and offshore teams to establish and maintain CRM technology
- Experience consulting with external clients on complex projects, including in leadership roles (experience with legal, architecture, engineering, construction, or professional services firms considered a plus)
- Preferred Microsoft D365 Certifications but not required

Travel: 25% (Suspended Due to Covid-19)
